RAINBOW FESTIVAL 2003 is an annual celebration on Labor Day Weekend. FACES, CGNIE, and LAMBDA COMMUNITY CENTER sponsor 3 days of fun which culminate in the Street Fair on Sunday (August 31) before Labor Day. It's located at 20th & K Streets in Midtown Sacramento. The event draws up to 7,000 people. The signature Street Fair event features some of Sacramento's best local entertainment: Sammy-award winning live bands, and headliners in 3 themed staging areas.

On Stage 3 - **Women Rock!** (Big Top Tent Behind Faces) you'll find these groups:

True Colors
Dre
GG Amos
"Cabaret Kids"
Many More TBA!

On Stage 1 - **Rainbow Stage** (20th and "K" St. Intersection) you'll enjoy these sounds and famous folks:

Gayiel Von (Emcee)
SVL Color Guard & National Anthem
Paris Clayton Band

Sacramento Men's Chorus
Cheer San Francisco
Sugar Boom Boom
Capitol City Squares
Lacy Baker Band
Diva Chorus
Lt. Gov. Cruz Bustamante
Mayor Heather Fargo
Slam Bukra & His Groove Palookas
Judy Tenura

Over the past 16 years, RAINBOW FESTIVAL has raised over \$250,000 for local charity organizations such as Lambda Community Fund, Kids with Cancer, Make-a-Wish Foundation, Fairy Godfathers' Fund, WEAVE, CARES, Breaking Barriers, and many others. Founded in 1986 by Terry Sidie and Richard Boriolo as a pride event held in the back parking lot of Faces Nightclub, the fair has grown in size to encompass the streets surrounding the intersection of 20th & K, and has expanded through-out the Labor Day Weekend.

The admission price to the Street Faire is \$5 at the gate.

Check out their website at:
<http://www.rainbowfestival.com>

SACWN will have their booth at the faire this year. Come and say Hi.

Couples Dinner Group

The Couples Dinner Group had a great time in June. We went to Louie's at Stockton and Broadway. There were 11 couples and we literally had the whole place to ourselves. The wait staff was terrific! And the service and food were fantastic. We all stayed until the restaurant closed and then everyone went on to other things. Lots of food went home too. We shared food, friendship and good conversation. I know MaryLou and I had a great time. There was a suggestion to have some of the dinners at a couple's home instead of always in a restaurant, so..... any volunteer?

There are exciting dinners planned for August and September. The August dinner is going to be a combination Luau and anniversary party for one of the couples. September will be fun too. Email me jazlady88@hotmail.com for more information.

We welcome all lesbian couples to join us for good food, good conversation and a great time. Hope to see you at the next Couples Dinner!

Let's Help Support Our LLACE!

Lavender Library is a valuable organization which provides a variety of services to our community. LLACE receives no grants and is managed with all volunteers. We need to give our financial support because LLACE brings us so much. Besides having 10,000

books, periodicals and multimedia items for loan, LLACE holds book groups, movie nights,

artist exhibits, author's presentations, lectures from other influential people from the community, and performing nights.

Most GLBT libraries do not loan out their items. We are so fortunate to be able to have this wonderful service available to us. So become a Pride Preserver with a yearly registration for all of their services. Or just send in a check to show your support. The Health Question for This Summer: Water or Coke?

WATER

1. 75% of Americans are chronically dehydrated.
2. In 37% of Americans, the thirst mechanism is so weak that it is often mistaken for hunger.
3. Even MILD dehydration will slow down one's metabolism as much as 3%.
4. One glass of water will shut down midnight hunger pangs for almost 100% of the dieters studied in a University of Washington study.
5. Lack of water, the #1 trigger of daytime fatigue.
6. Preliminary research indicates that 8-10 glasses of water a day could significantly ease back and joint pain for up to 80% of sufferers.

7. A mere 2% drop in body water can trigger fuzzy short-term memory, trouble with basic math, and difficulty focusing on the computer screen or on a printed page.

8. Drinking 5 glasses of water daily decreases the risk of colon cancer by 45%, plus it can slash the risk of breast cancer by 79%, and one is 50% less likely to develop bladder cancer.

And now for the properties of COKE

1. In many states (in the USA) the highway patrol carries two gallons of Coke in the truck to remove blood from the highway after a car accident.
2. You can put a T-bone steak in a bowl of coke and the steak will be gone in two days.
3. To clean a toilet: Pour a can of Coca-Cola into the toilet bowl and let the "real thing" sit for one hour, then flush clean. The citric acid in Coke removes stains from vitreous China.
4. To remove rust spots from chrome car bumpers: Rub the bumper with a rumpled-up piece of Reynolds Wrap aluminum foil dipped in Coca-Cola.
5. To clean corrosion from car battery terminals: Pour a can of Coca-Cola over the terminals to bubble away the corrosion.

6. To loosen a rusted bolt: Applying a cloth soaked in Coca-Cola to the rusted bolt for several minutes.

7. To bake a moist ham: Empty a can of Coca-Cola into the baking pan, wrap the ham in aluminum foil, and bake. Thirty minutes before the ham is finished, remove the foil, allowing the drippings to mix with the Coke for sumptuous brown gravy.

8. To remove grease from clothes: Empty a can of coke into a load of greasy clothes, add detergent, and run through a regular cycle. The Coca-Cola will help loosen grease stains.

9. It will also clean road haze from your windshield.

For Your Info

~ The active ingredient in Coke is phosphoric acid. Its pH is 2.8. It will dissolve a nail in about 4 days. Phosphoric acid also leaches calcium from bones and is a major contributor to the rising increase in osteoporosis.

~ To carry Coca-Cola syrup (the concentrate) the commercial truck must use the Hazardous Material placards reserved for Highly Corrosive materials.

~ The distributors of Coke have been using it to clean the engines of their trucks for about 20 years!

Now the question is, would you like a glass of water or a coke?

SHOWTIME Original Series: THE L WORD,

explores the lives and loves of a group of Los Angeles lesbians. The series is slated to start in January, 2004.

Jenny Schecter (MIA KIRSHNER) is a gifted young writer of fiction who just completed her MFA at the Iowa Writer's Workshop. With a major literary award and one published short story to her credit, she arrives in Los Angeles to begin her "adult life" with her boyfriend - soon to be fiancé - Tim Haspel (ERIC MABIUS), a women's swim coach at a large state university.

They reside in West Hollywood, next door to Bette Porter (JENNIFER BEALS), a museum director, and

her partner Tina Kennard (LAUREL HOLLOMAN). Bette and Tina have been a couple for seven years and are trying to find the perfect sperm donor to help them to start a family as they struggle with their relationship and the roles they've chosen

or found themselves in and what it all means to their future.

Normally on top of things, Jenny's life is turned upside down when she attends a party hosted by Tim's neighbors, Bette and Tina. A brief encounter at the party suddenly has Jenny thrust into a lesbian community and a whole new world.

New Tax Laws Expand Your Investment Opportunities
By Diova A. Gray

You've probably seen a lot of headlines on the Tax Relief Act of 2003. This legislation, recently signed into law by President Bush, will affect virtually everyone in the country. As an individual investor, you've got reasons to cheer the new tax laws. Many people will find that their taxes will decrease 5 percent or more under the new tax laws.

Let's review some of the tax act's key areas and see what actions they might suggest:

Lower dividend taxes - If you've invested in dividend-paying stocks or stock mutual funds, your dividends were taxed at your individual tax rate (e.g., 27 percent, 30 percent, 35 percent or 38.6 percent). But under the new laws, the tax rate on dividends will be cut to 15 percent. And if you're in the 10 percent to 15 percent bracket, the dividend tax rate drops to 5 percent. These new, lower rates are effective retroactively to the beginning of 2003 through 2008. In 2009, dividend taxes are scheduled to revert to the old, higher rates.

Should you be interested in stocks that have a history of paying dividends, there are certain considerations to take into account. First, it's nice to get the dividend checks. (Keep in mind, though, that stocks do not offer a fixed rate of return and may not distribute dividends. Stocks are subject to market risks, including the potential loss of principal). Also, when a company pays dividends, it can be a sign that the business is well-run and concerned about the needs of its shareholders. Conditions can change at any time, but stocks with a track record of paying dividends tend to be more steady performers relative to non-dividend paying stocks that have a limited track record.

Another advantage to dividend-paying stocks and dividend paying stock mutual funds: Investors can consider reinvesting unneeded dividend income into additional shares of stocks/mutual fund.

Lower capital gains taxes - The long-term capital gain rate has been reduced to 15 percent from 20 percent for many taxpayers. Taxpayers in the 10 percent and 15 percent ordinary income tax rate brackets will see a decrease in capital gains taxes from 10 percent to 5 percent. All of these reductions are effective for sales of securities after May 5, 2003. As is the case with dividend taxes, the new rate will remain in place through 2008.

If you've held some stocks for many years, and they've appreciated significantly, then the cut in capital gain taxes may benefit you greatly. Previously, you may have avoided selling these stocks - even if your diversification

needs have changed - because you didn't want to face a big tax hit.

Now, however, with the new, lower capital gains rate, you'll find it much more affordable to sell these stocks and make the changes you need to help you properly balance your portfolio. But talk to your tax professional as tax considerations should not be the driving factor for making investment decisions.

Lower Tax Rates - Earlier tax law changes lowered tax brackets for 2006, but the new legislation has sped up the timetable, so that the new rates are retroactively effective on Jan. 1, 2003. The 10 percent and 15 percent rates remain unchanged, but the 27 percent rate drops to 25 percent; the 30 percent rate drops to 28 percent; the 35 percent rate falls to 33 percent; and the 38.6 percent rate drops to 35 percent.

Increase in Child Tax Credit - The amount of the child tax credit is increased to \$1,000 (from \$600) in 2003 and 2004. Beginning this summer, the increased amount of the child tax credit will be paid in advance based on information in taxpayer's 2002 tax returns.

Increase in Small Business Expensing for New Investment - This tax act quadrupled the maximum amount of investment in equipment that small businesses can expense from \$25,000 to \$100,000. This will encourage small business owners to purchase the technology, machinery and other equipment they need to expand.

Increase in First-year Bonus Depreciation - This deduction increases from 30 percent to 50 percent for qualified investments which are placed in service after May 5, 2003 and before January 1, 2005.

You may want to invest your tax savings by setting up a bank authorization that moves money automatically, at a set interval, from your bank account into the investment of your choice. Since systematic investing does not assure a profit nor does it protect you against losses in declining markets, it's best to consult with your investment representative and tax advisor to see how you can adjust your investment strategies in response to the new tax laws. But take action soon - this legislation has given you some great possibilities, and you'll want to take advantage of them.
